

CORPORATE INFORMATION PACKAGE

Company Overview

Meteor Graphics is a well established Print Production company located in Toronto, Canada. We offer a variety of services including Creative Design, PrePress, Printing, Finishing, and Distribution.

Although we are located in Toronto, our business is not limited to the local area. We offer our services all over the world including North America, South America, Europe, Asia, and the Caribbean.

Our philosophy towards Print Production is to provide the ultimate in client servicing ensuring hassle-free production and creativity that nurtures and expresses the needs of the client while aggressively communicating the marketing message in imaginative ways.

With over 20 years of experience in Print Production, we can promise you that our work will exceed your expectations. In fact, the majority of our production orders come from repeat customers and referrals.

What can you expect as a Meteor Graphics client?

Meteor Graphics clients experience the ultimate in customer service.

We take pride in ensuring our clients expectations are exceeded both in the outcome of the project and in the process it took to bring it to completion.

One of the biggest reasons our clients enjoy working with us is our unique method of business.

In comparison to other more traditional vendors, we have found that clients prefer our hands-on personalized service and that they take comfort in knowing that we are just a phone call away at anytime (24/7) to help them with any questions about their projects or our services.

We also take a unique approach when it comes to discussing projects with our clients.

What's unique is that you'll never receive a "Quote" from our company.

What you will receive is a Project Proposal. We develop our proposals by taking the time to carefully listen to your needs, analyzing the project details, and reviewing the facts and benefits to ensure that we recommend the best possible solution.

Another unique aspect about our company is that we don't charge set-up fees for projects that have previously been printed through other vendors. The reason for this is that we feel it's important to show that we are committed to earning your business by providing exceptional service & value.

We hope that you will consider us as a resource for your Print Production needs and would like to thank you for taking the time to review our information package.

Regards,

David Harichand
